

Dakshitha Wickremasinghe

Creative Thinker • Graphic Designer

15 Years
experience

BA (Hons)
Graphic Design

Designed for
EFFIE Gold Award
winning project

Experience | Proficiency | Reliability

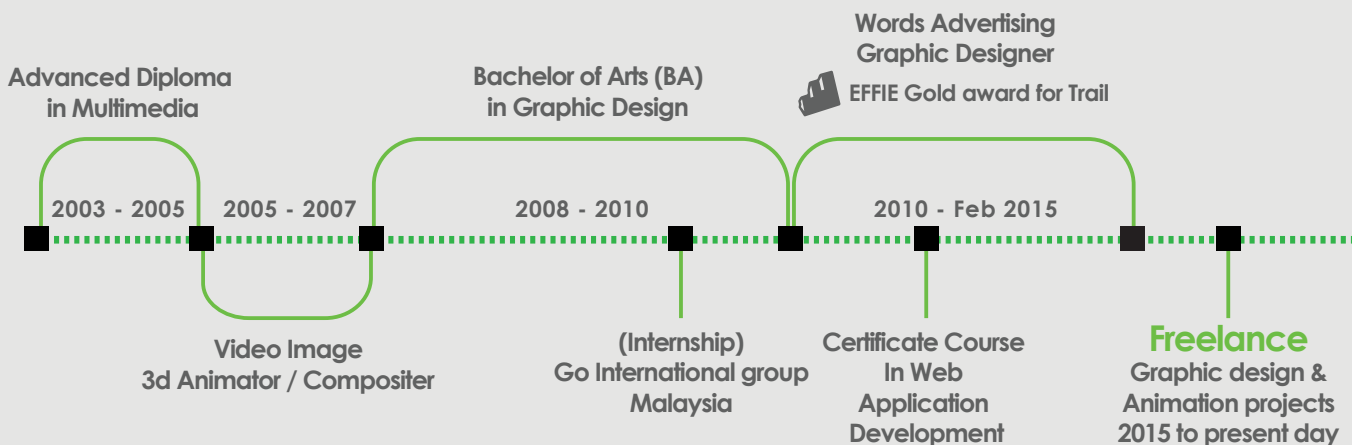

When it comes down to Graphic Design, I genuinely believe that creativity and great conceptualization skills are like bread and butter – you just can't do without them and let's not forget about those graphic tools – they make the magic happen.

However, here's the kicker : keeping a solid work ethic that's built on reliability and serious dedication. Meeting deadlines with well crafted top-notch work and being there for the long haul to earn the clients' trust; that's what makes a designer into a rock-star!

About Me

Photography

Photography started out as a hobby for documenting memorable times with friends and family. Adding photography to my professional skill set gave me a chance to add value to my designs and deliver a better product for my clients. Over the last 3 years I have had the chance to do numerous design projects which I also did the product photography for.

Listening to Audio books

Somewhat I have never been much for reading books but I'm a hopeless audiobook addict. Some of my favorite titles are The Ender's Game series by Orson Scott Card, A History of the World in Six Glasses by Tom Standage, The Three Body Problem by Liu Cixin and The Expanse by James S. A. Corey
